

Lamberti and AgBiome Expand Collaboration to Develop New Biological Crop Protection Products

**Research Triangle Park, NC
June 27, 2023**

Lamberti and AgBiome, two leaders in the development of biological crop protection products, today announced an expansion of their ongoing collaboration. The companies will work together to develop new biological liquid formulations.

*"We are excited to expand our collaboration with Lamberti," said **Eric Ward**, co-CEO of AgBiome. "Lamberti is a world-class formulation technology company with a deep understanding of the needs of growers. Together, we can develop new products that meet the high standards of farmers and help them produce healthy, sustainable crops."*

Lamberti is a leading supplier of formulation technology and specialized chemistry for the agriculture, food, and personal care industries. The company has a long history of developing innovative and effective formulations that meet the needs of its customers.

*"We are proud to be working with AgBiome to develop new biological crop protection products," said **Scott Tann** North America Business Manager, Agriculture Division, Lamberti. "We believe that our expertise in formulation technology can help AgBiome bring new and innovative products to market that will benefit growers and consumers around the world."*

About AgBiome

AgBiome® partners with the microbial world to improve our planet. AgBiome discovers and develops innovative biological and trait products for crop protection. The proprietary GENESIS™ discovery platform efficiently captures diverse, unique microbes for agriculturally relevant applications, and screens them with industry-best assays for insect, disease, and nematode control. Through its commercial subsidiaries, AgBiome develops and sells proprietary crop protection solutions. The first of these, Howler®, is a revolutionary fungicide for disease control in a broad variety of crops. In 2021, AgBiome was recognized by Inc. Magazine as a Best Place to Work. AgBiome's additional investors include Polaris Partners, ARCH Venture Partners, Fidelity Investments Inc., UTIMCO, Pontifax AgTech, Novalis LifeSciences, Innotech Advisors, Syngenta Ventures, Leaps by Bayer, and Novozymes.

About Lamberti

Lamberti USA Inc., a company of the Lamberti Group who is a specialty chemicals global manufacturer headquartered in Italy with plants and affiliates located in North America, Latin America, Europe, India, and Asia Pacific. Through its core technologies, including Oleochemistry, Natural and Synthetic Polymers, Lamberti is present in the Agriculture Industry with a variety of co-formulants and adjuvants aimed to improve formulation and bio-efficacy while reducing the environmental impact.
